

Suggested Donations to Barnabas International

Barnabas does not charge a fee for service. We do have suggested donation amounts for the various types of care we provide. However, the level of and provision of care is not dependent on this donation; nor will anyone be turned away from receiving care on the basis of ability to give or not give a suggested donation.

Should someone choose to give a suggested donation, our recommendation(s) for amounts are below. This scale is a general guideline should an individual offer a donation. Please note, these are only guidelines. Also, be aware that our suggested donation for global workers is much lower than the “market rate” in North America.

Service	Suggested Donation	Explanation
Pastoral Counseling, Spiritual Direction, Coaching, or Debriefing.	\$60	Offered by Barnabas staff who are certified Spiritual Directors and Coaches, experienced Pastoral Counselors, and trained Debriefers.
Clinical Counseling	\$60	Offered by Barnabas staff who are licensed to practice as clinical counselors.
Psychiatric or Psychological Consultation	\$100	Often called clarifying conversations, a licensed Barnabas psychiatrist or psychologist will provide a consultation resulting in clarity of diagnostic issues and recommendation for care. Examples might include clinical depression, anxiety, post-traumatic stress disorder, behavioral problems in children, and risk of self-harm. Barnabas does not offer pre-field assessments or psychological testing.
Critical Incident Stress Debriefing (CISD)	\$60	Offered by Barnabas staff, a 2–3 hour structured crisis debriefing involving individuals or groups who have experienced a traumatic incident.
